Emerge Strong: An Advantage from Day One

Treating Genuity® Roundup Ready 2 Yield® soybeans with Acceleron® Seed Treatment Products is one of the best ways to get them out of the ground and off to a strong start. Get excellent disease-fighting protection, insect protection and improved early season vigor.

Yield Strong

Acceleron® Seed Treatment Products are the only seed treatments designed to help maximize the performance potential of Genuity® Roundup Ready 2 Yield® soybeans.

A Visible Difference from the Start

Untreated Genuity® Roundup Ready 2 Yield® Soybeans

Genuity® Roundup Ready 2 Yield® Soybeans with Acceleron® Insecticide and Fungicide Soybean Seed Treatment Products

DAP 43–Monsanto Field Trials, Farina, IL, 2011
Two Different Treatment Options

Acceleron® Soybean Seed Treatment Products are designed to work with Genuity® Roundup Ready 2 Yield® soybeans, but can be used with other soybean products as part of an optimal system.

**PLANT HEALTH**
- Improved plant health through more rapid and increased emergence of seedlings under certain cold conditions.

**DISEASE-FIGHTING PROTECTION**
- Excellent control of Pythium, Fusarium, Phytophthora and Rhizoctonia from an exclusive fungicide combination featuring pyraclostrobin and metalaxyl.

**INSECT PROTECTION**
- Protection from early season insect pests, such as bean leaf beetles and aphids, utilizing imidacloprid.

Faster Starts for Fuller Canopies

Acceleron® Fungicide Seed Treatment Products for Soybeans include Acceleron DX-309 and Acceleron IX-109.

Acceleron Insecticide and Fungicide Seed Treatment Products for Soybeans include Acceleron DX-309, Acceleron DX-109 and Acceleron IX-409.

2011 SEED TREATMENT PERFORMANCE FOR SOYBEANS

Acceleron Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto’s Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercial products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Acceleron and Design®, Acceleron®, Genuity®, Monsanto and Vine Design®, Roundup Ready 2 Yield®, Roundup Ready®, and Roundup® are registered trademarks of Monsanto Technology LLC. ©2011 Monsanto Company.
